

# EWYT-B-

Multi scroll heat pumps with R-32 refrigerant

# Daikin

Infininitely flexible

choice in heat pumps

## First on the market

Pioneering the introduction of R32 refrigerant in air conditioning systems

## Low environmental impact

**R-32**  
refrigerant

**68%**

Lower GWP  
compared to R410A

## Wide capacity range

Cooling Capacity 75 – 610 kW

75 150 300 450 610  
kW

Heating Capacity 80 – 650 kW

80 150 300 450 650  
kW

## Wide operating envelope

Hot water production  
**up to 60°C**  
for multiple heating  
applications

Chilled water production  
**down to -15°C**  
for brine application

**down to -18°C**  
low ambient temperature  
both in cooling and  
heating mode for the  
most critical applications

**up to 52°C**  
ambient temperature  
operation suitable  
for the most extreme  
conditions

## Achieving best performances

**Top Full Load and Part Load**  
efficiencies for Comfort and  
Process applications both in  
Cooling and Heating modes

- > EER up to 3.06
- > SEER up to 4.92
- > COP up to 3.52
- > SCOP up to 4.06

## Multiple versions for different applications

- > Heat pump versions
- > 2 Efficiency versions: Silver and Gold
- > 3 sound configurations
- > Applications: radiators, fan coils, radiant floor, Collective Housing

## Customer Orientation

- > Extensive Option list to satisfy every customer need
- > Pump kits both Fixed Speed and Inverter, Heat recovery, EC Fans, Integrated tank, Soft Starter and Coil treatment

## Enhanced Connectivity

- > User friendly control interface
- > Control by App
- > Daikin On Site
- > Modbus and Bacnet Communication

## Compact Footprint

Parallel Coil and  
Double V Coil
